
Summary

fourth-year Software & Information Systems Engineering student at Ben Gurion University. Experienced in product development using Python and JavaScript. Worked as a software engineer in a team at Amphorica Ltd and worked as a teacher assistant at Ben-Gurion University. Excellent interpersonal skills, known for being a fast learner, reliable, loyal, and highly motivated. Demonstrated ability to collaborate effectively with cross-functional teams, delivering successful projects within tight timelines. Seeking opportunities to apply my technical expertise, contribute to innovative software solutions, and further develop my skills in a dynamic and challenging environment.

Education

2020-Present: B.Sc. Software & Information Systems Engineering in Ben-Gurion University
Expected Graduation: 2024

Experience
